

State Mandated Health Screenings

State mandated screenings for Hearing, Vision, and Scoliosis will take place throughout the year for grades Kinder, 1st, 3rd, 5th and 7th. If you receive a referral letter as a result of the screenings, please contact your pediatrician and discuss scheduling a follow up exam as soon as possible. If you do not receive a referral letter, your child has passed the guidelines set by the Texas Department of Public Health.
